Subject: Benzene data from ocean veritaa
Date: 06/17/2010 08:19 PM

All,

Dana Tulis has asked us if there is VOC data, specifically benzene data from ocean veritas that we can get our hands on. Please see if such data exist on the epaosc server. Apparently, the ORD folks have, or have seen, monitoring data on benzene collected for worker safety.

This task is a priority and needs to be done first thing in the morning.

Thank you. Call me if you like. 609-865-3924
